

BACK-END WEB DEVELOPER

Employee Location: Burbank, CA

Job Status: Full-Time, Exempt

Reports To: Producer

HERE'S THE DEAL

We are a full-service esports company that creates, manages and monetizes competitive video game leagues. We build a title's competitive community from the ground up, growing it into a unique, professional and world-class esports operation. We manage all league operations and produce expert live entertainment in-studio or at stadium-sized venues. We deliver monetary results by authentically translating our publishers' and brand sponsors' business outcomes to this massively diverse community.

We seek out ambitious partners and are the leading esports company for new gaming titles. We are experiencing breakneck growth and are looking for an individual that loves to create a unique experience for users to engage with our product; for someone who gets fired-up manipulating and directing data to build components into reliable and expansive applications alongside a small, high-energy team. We want someone who pushes back on the status quo and does things faster and better - because that's what gets them out of bed in the morning.

As a wise old man once said, "It's dangerous to go alone, take this!"

WE NEED YOU TO

- Work alongside company founders to help shape the future of online esports entertainment
- Write, build and modify tools and applications utilizing MERN (Mongo/Express/React/Node)
- Convey complex concepts and methodologies in simple, compelling terms
- Produce detailed specs with precise requirements
- Rapidly prototype upcoming features, solutions and APIs as part of regular updates
- Raise the quality bar and design standards for NGE across all projects
- Fanatically deliver the best fan experiences possible
- Perform other tasks as assigned

YOU MUST HAVE

- Passion for video games and interactive media
- Quality experience with Mongo, Express, React and NodeJS
- Acumen in managing and wielding content from multiple APIs
- Clear understanding of the Software Development Life Cycle
- Experience with rapid prototype development
- Understanding of UX/UI design and wireframing
- A portfolio of your commercially available applications and work

- A track record of excelling with little supervision
- Experience managing multiple priorities in high-stress, time sensitive environments
- The desire for a fast paced, entrepreneurial environment

Reasonable Accommodations Statement: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable Accommodations may be made to enable qualified individuals with disabilities to perform the essential functions.
